# Mini pneumatic chamfering machine

Product Code: 0066
Availability: In Stock

Price: ~~256.20€~~ 183.00€

Ex Tax: ~~210.00€~~ 150.00€

Description

The mini pneumatic chamfering machine is an excellent tool for chamfering metal edges, particularly suitable for workshops like tool shops, foundries, and similar industries. Operation is simple, and the machine requires no special maintenance, as it runs on compressed air. Suitable for all shapes, both flat and round edges.

Dimensions: 120 x 33 mm
Working pressure: 6 bar
RPM: 30,000 rpm
Chamfering capacity: 0.1 - 1.5 mm

Minimum possible sheet thickness: 3 mm
Weight: 0.50 kg
