Description

Industrial sweeper or manual sweeping machine, of high quality and performance, WITH A DOUBLE FILTER! It is designed for sweeping large areas, as it has a wide working width and a very robust construction. It features a sweeping width of 1m, a large dustbin, an anti-dust filter, brush regulation, ease of use, and robust construction.

Suitable for:

- Sweeping leaves, twigs, and sand on all surfaces, including asphalt, concrete, or tiles
- Sweeping workshops, warehouses, production halls (dust, sand, sawdust, it even collects small metal objects like screws and nuts, other debris...)

Possibility to view and test in our premises.

Drive: manual

Performance: 3920 m² / h

Working width: 1000 mm

Bin capacity: 55 l

Weight: 22 kg

Equipment: adjustable side brushes, foldable handle, large rubberized wheels, anti-dust filter (no dust while sweeping)

The floor sweeper is also an indispensable tool for sweeping homes, workshops, and industrial areas.

The stated price does not include VAT.
